

MD. TANGIMUL HAQUE

Manufacturing Technology Expert | Deputy Assistant Director Gazipur, Bangladesh |

+880 1838 120302 tanjimjoy@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 3+ years of experience designing and developing enterprise web and desktop applications using ASP.NET Core, C#, WPF, PHP, MySQL, REST APIs, and Docker. Experienced in manufacturing automation, scalable system architecture, database optimization, and digital transformation. Skilled in building and maintaining enterprise solutions with both .NET and PHP technologies while following Clean Architecture, SOLID Principles, and Agile methodologies.

TECHNICAL SKILLS

- **Languages:** C#, PHP, JavaScript, Golang, HTML5, CSS3.
- **Frameworks & Libraries:** ASP.NET Core, WPF, Node.js, Express, React, Redux, AJAX, Bootstrap, jQuery.
- **Databases:** MySQL, SQL, Database Optimization, Indexing & Query Optimization.
- **DevOps & Tools:** Docker, Docker Compose, Git, CI/CD (GitHub Actions), Postman, RESTful API.
- **Architecture & Process:** Clean Architecture, SOLID Principles, Design Patterns, Scalable System Design, Agile/Scrum, Requirements Engineering.

PROFESSIONAL EXPERIENCE

WALTON Hi-Tech Industries PLC *Deputy Assistant Director (Manufacturing Automations)* | **Present**

- Developing scalable web/desktop applications for digital transformation
- Built C#/.NET WPF desktop apps for label printing and packing, streamlining production and logistics
- Architect enterprise [ASP.NET](#) Core web applications with Clean Architecture and SOLID principles
- Collaborate with stakeholders to translate business needs into high-performance system designs
- Improved system performance by 40% through code and database optimization
- Designed reusable modules cutting future development effort by 30%
- Developed RESTful APIs to integrate multiple internal systems seamlessly

KEY PROJECTS

- **Coaching Center Management System:** A comprehensive web application built with ASP.NET Core 8 and MySQL for managing student enrollment, attendance, and analytics.
- **Inventory Management System:** A robust solution for tracking stock levels and managing suppliers using RESTful APIs and ASP.NET Core.
- **GPS Fleet Tracking & Geofence Management System:** A real-time monitoring solution built with **Traccar**, React, featuring Telegram-integrated geofence alerts, live tracking dashboards, and historical route reporting.

EDUCATION & CERTIFICATIONS

- **Bachelor of Science in Computer Science & Engineering**, City University Bangladesh (2018–2022).
- **Web Application Development Using ASP.NET**, IsDB-BISEW IT Scholarship Program (2021).
- **Diploma in Telecommunication Engineering**, Institute of Information Technology Bogura (2011–2015).
- **Secondary School Certificate (Electrical)**, Technical Secondary School & College Chapainawabganj (2010).
